### **DETAILED ACTION**

I. Rejection of claims 1,3-18,20-28,30-39,41-48,50-56,68,69,71,72,82-95 under 35 USC 103(a) as being obvious over AF 300 from Nufarm MSDS will not be maintained in light of amendment filed 8/17/06 for reason on record and reason as follows. In dependent claim discloses specific chlorinated carboxylic acid herbicides and specific classes of nonionic surfactants. The prior art also does not teach the herbicide being fully dissolved in the surfactant.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 97-102 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for surfactants listed on pages 6-13, does not reasonably provide enablement for all other surfactants such as anionic or cationic surfactants. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. Undue experimentation would be required to determine which anionic or cationic surfactants would be suitable for instant invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1616

Claims 97-102 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims are rejected because Applicant does not define silicone-based surfactants.
